## HOME-COMING AND ANNUAL ELECTION JUNE 17

We now have one more event to complete our current year, and that is the Home-Coming at Loma Linda on Commencement Day.

The Loma Linda Division of our Alma Mater is inviting us home on this occasion. They have arranged an interesting program and entertainment to begin at 2:30 in the afternoon. At 4:45 they are providing refreshments for the Alumni, which includes the seniors who are now Junior members, and their families. There will be opportunity for those who have paid this year's dues to cast their ballots for the new members of the Board. Ample time will also be allowed for paying your membership dues for 1934-35!

Good music, good eats, good entertainment, good fellowship, and a good time by all will be had. Be present!

Benton N. Colver, M.D.

## BACCALAUREATE AND COM- MENCEMENT TICKETS

Arrangements have been made whereby the Alumni members may have tickets for a special reserved section at the Baccalaureate exercises to be held at the Pasadena Civic Auditorium, Pasadena, on Sabbath, June 16, at 3:00 o'clock. You may get the number of tickets you wish by applying at the Alumni Office between June 1 and 15. In case you are not able to call at the office, write or phone in your reservations and the tickets will be held for you until 2:50 p.m. at the Ticket Office of the Auditorium on June 16.

Graduating exercises will be held in Loma Linda at 6:00 o'clock on Sunday afternoon, June 17. Call at Dr. Risley's office for tickets before 5:50 of Commencement Day. Alumni tickets for this occasion will not be available elsewhere.

## SPONSORSHIPS

The Alumni Board has made a change in the sponsorship plan. The annual dues are \$3.00. The income from this source is not yet sufficient to carry on the basic activities of the Association. To raise further money, an alumnus is accredited as being a sponsor when he has paid his dues (\$3.00) and a sponsorship (by an added \$7.00), making a total of \$10.00 covering both. This \$10.00 is accredited to the General Fund of the Association for the annual routine activities. Moneys donated for special purposes from time to time are not accredited to the General Fund.

## MONTHLY ALUMNI LUNCHEON

Nearly one hundred of our doctors from in and around Los Angeles have at some time been in attendance at the Monthly Alumni Luncheons which originated last Fall. The last luncheon of this current year, until next September, will be held on Wednesday, June 13, at the Ontra Cafeteria. Dr. Wilton L. Halverson will be in charge of the meeting and he will have as the guest speaker, Mr. Lyle Cunningham of the Los Angeles County Bureau of Efficiency. Be sure to be present and bring some friends.

## ATTENTION!

All C.M.E. and A.M.M.C. Alumni planning to attend the A.M.A. meetings in Cleveland, June 11 to 15, should keep in touch with the Bulletin Board in the North Lobby of the Public Hall, and the Academy of Medicine Information Desk at Public Hall, so you will not miss the notice of the Alumni Reunion. Dr. Malcolm R. Hill, president-elect of the Alumni Assn., will be present to sponsor an Alumni get-together either in the form of a Breakfast or a Banquet.

## CALENDAR

Wednesday, June 6

7:00 p. m. White Memorial Staff Meeting, Evans Hall. Speaker: Dr. Charles Lowman. "Convalescent Treatment of Poliomyelitis with Special Reference to Physical Therapy."

Saturday, June 9

7:30 p. m. The Bards. Pipe Organ Benefit Program, Loma Linda Amphitheater.

Wednesday, June 13

12:15 noon. Alumni Monthly Luncheon at the Ontra Cafeteria, 757 South Vermont, L. A. Speaker: Mr. Lyle Cunningham of the Los Angeles County Bureau of Efficiency.

June 11 to 15

A.M.A. meeting at Cleveland, Ohio. Alumni Reunion during this event.

Sabbath, June 16

3:00 p. m. Baccalaureate exercises at the Pasadena Civic Auditorium, Pasadena, Calif.

Saturday, June 16

8:15 p. m. The Bards. Pipe Organ Benefit Program, Paulson Hall.

Sunday, June 17

2:30 p. m. Alumni Home-Coming at L. L.

6:00 p. m. Commencement exercises at L. L.

July 16-18

Alumni Reunion in Duluth, Minn., during the State Medical Meeting. Get in touch with Dr. E. C. Mitchell, Box 25, Mound, Minn., if you can attend.

## NORTHERN CALIFORNIA ALUMNI CHAPTER

The Northern California Chapter of the Alumni Association of C.M.E. has been born! The date of its birth, May 13, 1934, was a red-letter day for the sixty-three who were fortunate enough to be able to attend its birthday party in San Francisco. Drs. Frederick G. Niemand and Charlotte Boehm were responsible for the excellent program and entertainment.

At 3:00 p.m., in the lobby of the Fairmont Hotel, friend found friend and old times were recounted. Soon we were ushered into the room where the scientific part of our meeting was to be held, at which place Loren Chandler, M.D., Dean of Stanford University Medical School, welcomed us.

Papers were read by Wallace Smith, M.D., Professor of Otolaryngology of the University of California Medical School; Garnett Cheney, M.D., Assistant Clinical Professor of Medicine of Stanford University Medical School; and George K. Rhodes, M.D., Assistant Chief Surgeon of the San Francisco Emergency Hospital Service. An interesting discussion followed the reading of each paper.

A short recess allowed for more gossiping. Soon we gathered in the dining room for the evening's entertainment. A most excellent dinner was served. Dr. Charles Campbell, master-of-ceremonies, called to our attention those who had come a long distance to be with us, namely, Drs. P. T. and Lillian Magan, Dr. Benton N. Colver, Dr. and Mrs. Roger W. Barnes, and Dr. and Mrs. Malcolm R. Hill.

Dr. Barnes spoke first, urging us to remember that it is only with the help of all of the Alumni that any worthwhile results can be obtained. Dr. Colver reported on the school's activities. It was interesting to learn that there are sixteen places in the United States where similar chapters can be formed.

Dr. P. T. Magan inspired us to greater loyalty with the words, "As long as we are true to our ideals, old C.M.E. will prosper and her sons and daughters will be found the world around." He urged us to be personally alert in regard to the legislature which meets next January and which will bring about the greatest crisis in medical practice in California of any time.

Some interesting news reels of C.M.E. and its activities were shown by Dr. Malcolm Hill.

After a very interesting program of music, and vocal solos by Dr. G. J. Lyman who had written one song especially for the occasion, the Constitution and By-Laws were adopted. Election of officers then took place, the results of which are as follows: President of the Northern California Chapter, Charles R. Campbell; Vice-President for the Bay District, Clyde A. Gregory; Vice-President for the Sacramento Valley District, Preston C. Byington; Secretary, Treasurer, Charlotte Boehm.

With our heads full of new ideas and our hearts full of the pleasures of the day, we adjourned to meet again, we hope, before many months are past.

Jean Wessels-Babcock, '29.

## NOTICE

The first Alumni Board meeting of the new fiscal year is being called immediately after the election at Loma Linda on Sunday, May 17, for the purpose of electing officers for the new year.

Those interested in doing locum tenens work this summer and those desiring doctors for locum tenens should get in touch with the Placement Bureau immediately.

## ALUMNI BREAKFAST

The Alumni Breakfast which was planned during the California State Medical Meeting, at Riverside, was a great success. There were thirty-five members of the Alumni present. The wives brought the total up to nearly sixty. The success of this first "Breakfast" has led to the determination to have an Alumni Breakfast during the time of the state medical meeting, annually, no matter where it may be held. This suggestion is also given to the Alumni in other states who may wish to follow this example.

During the meeting at Riverside, the Loma Linda Sanitarium, besides acting as host for the Breakfast, had fifteen Alumni and wives register as guests in the institution. The Alumni Association deeply appreciates the cordial entertainment extended to its members by the Loma Linda Sanitarium management. We are sorry the lack of space prevents listing those who attended the Breakfast Reunion.

## HAWAII

G. Mosser Taylor, '24

(Continued from May Journal)

Our oldest members in Honolulu are the Doctors Hans and Dale Bonde, Class of '16. They have become favorably known for their successful treatment of pneumonia and obstetrical work.

Dr. H. Chong Liu, Class of '22, was for a time connected with our Loma Linda faculty in the Department of Physiology. He is a member of the staff of the Queen's Hospital and is highly respected for his ability as a diagnostician.

Dr. James T. Kuninobu, Class of '28, who was for a time with our sanitarium in Tokio, has established his office among the best Japanese doctors. He holds the respect of medical leaders for his professional ability and attracts many a patient because he is known as a Christian doctor.

Dr. Shunji Ikuta, Class of '29, who took two years of post-graduate work in the University of Pennsylvania after his graduation, and several years ago another course at the New York Post-graduate School, is one of the few Japanese doctors limiting himself to nose and throat work, in which specialty he is now well established.

Dr. David Liu, Class of '30, and brother of Dr. Chong Liu, was connected with the Emergency Hospital in Honolulu until last September when he contracted pneumonia. His convalescence was a most stormy one, due to the development of an empyema which refused to drain properly. A rib resection was done, followed by a more radical procedure to break up adhesions that were interfering with drainage. It was not until the middle of December that he was able to leave the hospital. Dr. Liu still has his sunny disposition and plenty of stories to fit the occasion.

Dr. Alvin Dougan, Class of '31, interned at the Queen's Hospital, following which he took a number of locum tenens in plantation hospitals. Recently, he received an appointment as Director of Tuberculosis Work for the Territory in which position he is kept very busy.

Dr. Goonzo Yamashita, Class of '31, who did some special work in pediatrics before leaving California, is getting his start doing locum tenens for a doctor whose failing health forced him to go to Japan for a vacation. It is expected that Dr. Yamashita will continue as this doctor's assistant.

Dr. Thomas H. Maeda, Class of '33, has just moved into a new office on one of the main streets, a little ways out of the business district. When calling upon him, he was just recovering from an attack of influenza, but otherwise was of good courage.

## ALUMNI-SENIOR PICNIC

Those of the Alumni who were too busy or who did not care to come to the Alumni-Senior picnic missed a great time. Most of us are not acquainted with the Seniors of the past eight or ten years, but nevertheless, we like to look 'em over and be sorry for them. We always wonder if they had such a hard time as we had and each succeeding class emphatically says "Yes."

The lunch baskets were lugged up the little hill and the tables were tastefully decorated with baked beans, angel food cakes, and a sundry array of delicacies. At the word of command a hand-to-mouth contest began and the picnic was on. Nobody seemed worried about taking on a few extra calories.

Dr. Colver was just the man to lead in the games. He had everything in readiness for games for the children as well as the ladies and the doctors. It must have been a source of encouragement to the wives to see how well some of the men could hang clothes on the line—and mind you, with only one hand!

The "tug-o-war" was magnificent, but the Seniors should know better. The ball game fulfilled all expectations, but the reports of the score on both sides were so grossly exaggerated that perhaps there will be a visible scoreboard for the game next year.

With much misgiving, the salvaged remains of the lunch were revived, but at that moment Donald Griggs arrived with heavy reinforcements in the shape of a bigger and better lunch basket, and the day was saved.

Those who were left then gathered at the amphitheater by the "Big Fire Place" where Dr. Clemen Hamer enthusiastically sang out of us our last remaining strength, and the picnic—a real success—was over.—Leslie A. Smart, '22.

## DUES!

Those listed herewith have paid dues for the current year since the issuance of the *May Journal*: Myrtle Cummings, Gerald King, Ruth Merritt-Miller, Arlie L. Moon, and Robert Reid.

The Alumni Board greatly appreciates the loyalty of the 315 members who paid their dues this past year, and also those who became sponsors. Greater things can be accomplished, however, if this number can be increased.

Inclosed with this *Journal* is your statement of dues for the new fiscal year commencing July 1, 1934. Fill out the reverse side of the statement, as well as the front, and send it in to the Alumni Office immediately with your check for \$3.00 dues, plus a \$7.00 sponsorship, if possible. Do your part *now* and then forget that there is such a thing as dues and sponsorships!

# Did You Know That

The following recently appeared on the front page of the *Lincoln Journal*, a daily newspaper of Lincoln, Nebraska: "City Physician is Rushed. More Than 500 Calls During His First Month. Dr. Robert Underwood, '33, city physician, traveled more than 2,000 miles and made 510 professional calls during thirty days at his new post. His predecessor made 125 calls from Feb. 1 to Feb. 16. From Feb. 16 to 28, Dr. Underwood made 202 calls and followed up with 308 calls from March 1 to 15." Dr. Robert's brother, George Underwood, '31, is also located at Lincoln, and is specializing in Allergy. He is associated with Dr. George Covey, a prominent diagnostician of that city.

Sabro H. Hara, '32, has recently entered private practice and can be reached at the following address: Nishi Yanagihara, No. 1, 3 Chome, Hyogo, Kobe, Japan.

Wilton L. Halverson, '29, was recently appointed Health Officer for the City of Pasadena and entered upon his new duties on May 16.

Marcella Jo Haskell, now about fourteen weeks of age, has arrived for a permanent stay at the home of Drs. Joe and Ethel Andre Haskell, '31, and '24.

Alfred M. Tunnell, '32, writes from Novato, Calif.: "Since coming here I have been appointed District Physician and Surgeon for the Northwestern Pacific R.R. . . . Dr. Leo Smith and I are opening a nice suite of offices in San Rafael where we will be in partnership. I'll continue to live out here and share hours in town."

Edward Lindquist, '33, is doing four months' locum tenens for Harry E. Anderson, '24, of 9812 Washington Blvd., Culver City, Calif., and is associated with George Ham, '25.

Archie L. Moon, '24, is the Medical Director of the Porter Sanitarium and Hospital, Denver, Colorado.

Harold E. Beasley, '29, has been invited to join the staff of the Glendale Sanitarium. His leaving will make an opening in the Department of Ophthalmology at the White Memorial Hospital for a residency which has not yet been filled.

Glenn Hickey, '34, has secured the residency at the Santa Fe Hospital, Los Angeles, for this coming year.

O. B. Pratt, '24, who is taking post-graduate work in the East writes from Rochester, Minn., under date of April 26: "The first day in Chicago I had no thought of there being an acquaintance of mine in the whole city. As I entered the depot to leave for the night a man called to me as I passed him. I didn't even turn my head as I thought it was just another man wanting a cup of coffee. Then this fellow grabbed me by the arm. I swung around ready to fight, if need be. What a surprise to meet my good friend and classmate, Walt Jensen. I thought he was in Texas and he thought I was in California. Captain Jensen is a flight surgeon stationed in the U. S. Army Aviation School in Texas. He teaches in the Department of Psychiatry. He also examines all applicants from the psychiatric angle. When the army took over the air mail, Captain Jensen was sent to Chicago to look after the army aviators stationed at the Municipal Airport there. He will go back to Texas as soon as the air mail matter is settled.

Nellie M. Stevens, A.M.M.C., '07, writes from 1269 Harding Way E., Galion, Ohio, that she is enjoying the *Alumni Journal*.

The *Alumni Journal* is taking a vacation in July. The first number in the new year will be issued in August.

Tadao Hata, '31, of Kapaa, Kauai, T.H., in writing to G. Mosser Taylor, '24, says: "You remember my receiving the *Alumni* names in book form while you were here. You also recall that Dave Liu, '30, did not get his because he did not pay up his dues. Dave claims he did not know whether he was to live or not so he did not pay his dues. . . . Well, as soon as Dave left my home I began to miss my *Directory* and now when I want it most it's not to be found. I wrote to Dave and he said it was too much of a temptation, so he took it home for a souvenir. The bandit!" (Another *Directory* is enroute to you, Dr. Hata!—Ed.)

Ruth Merritt-Miller, A.M.M.C., '01, writes from the St. Helena Sanitarium, Sanitarium, Calif., that she appreciates what the *Alumni Board* is doing to make the Association of real practical benefit to its members.

## Do you specify "Cutter"?

● Many physicians prefer Cutter Biologicals. They feel that Cutter products insure better results, because they are produced to a rigid standard from Western strains. If you prefer 'Cutter', your refusal to accept substitutes will be justified by improved clinical results... and greatly appreciated by
